Cargo Superintendent/Port Captain (m/f/d)

ORT Leer

ART DER STELLE Full-time employee

EINTRITTSDATUM 01.08.2025

YOUR PROFILE

- Degree in Naval Architecture, Structural Engineer, Nautical Sciences or similar
- Preferably well experienced with AutoCAD or other CAD systems
- You have good 3D imagination and a sophisticated knowledge of mechanics
- You are innovative, reliable, accurate and stress resistant
- Business fluent English mandatory. Other language welcome
- Sea-going, shipyard or wind energy experience is beneficial

YOUR TASKS

- Take responsibility for the safe and efficient technical execution of our transports
- Analyse project cargo transport inquiries, develop our competitive technical transport solution and support our commercial chartering team in winning the tender
- Plan the transport in detail and issue required supporting technical documentation like stowage plans, lifting plans, sea fastening plans and method statements
- Ensure availability of all required materials for lifting, lashing and weight spreading
- Coordinate port operations between all stakeholders, remotely and occasionally on scene (EMEA region)
- Support our office and on-board team in all aspects and all technical matters.

WIR BIETEN

- Opportunities to develop yourself in a fast grown, family run shipping company
- long-term perspective in a future-oriented company
- Unbureaucratic working style with flat hierarchies
- International and dynamic work environment with colleagues from a wide variety of disciplines
- Workplace at waterfront opposite of historic town of Leer
- Possibility of participation in Hansefit and company bike leasing
