Chartering Broker (f/m/x) – Regional Trade & Project Cargo (Intra-Europe)

ORT Leer **ART DER STELLE** Full-time employee **EINTRITTSDATUM** 01.11.2026

Qualifications & Experience

Briese Chartering is an established shipowner and carrier based in Leer, Germany, managing a modern and versatile fleet of short-sea and multipurpose (MPP) vessels ranging from 3,000 to 10,000 DWT, with a strong focus on the carriage of project cargo.

We are seeking an experienced **Chartering Broker (f/m/x)** to join our Intra-European Regional Trade Desk. In this role, you will be commercially responsible for maximizing the utilization and profitability of our owned and controlled tonnage.

Essential Criteria

- **Minimum three years' commercial experience** on the owner's side or with an exclusive broker, specifically within the European short-sea or small MPP sectors.
- **Solid understanding of vessel capabilities within the 3,000-10,000 DWT range**, including stowage configurations, deck strength requirements, and regional port and canal restrictions.
- **In-depth knowledge of European trade routes**, including seasonal weather patterns, ice clauses, and short-sea port operations.
- **Fluency in English** is required; proficiency in German is strongly preferred given our regional hub and the need for close integration with the team.

Core Skills

- **Proficiency** in voyage estimation and industry-standard software tools, including MS Office, SEDNA, Netpas, and similar applications.
- **Established network** of direct project cargo clients, industrial shippers, and European freight forwarders.

What We Offer

- **Competitive salary.**
- **Modern working environment.**
- **A traditional yet dynamic shipping hub** in Leer, offering short decision-making processes and a high degree of autonomy.
- **Comprehensive benefits**, including company pension options, health benefits (e.g. company fitness membership), e-bike leasing, and individual career development opportunities.

YOUR APPLICATION WILL BE HANDLED BY

Christina Boelkes
Mail: christina.boelkes@briese.de

Key Responsibilities

Fleet Optimization and Chartering

- Fix our 3,000-10,000 DWT fleet on **Voyage Charters** and **Contracts of Affreightment (COAs)** across European trade routes, including the Baltic, North Sea, Continent, Mediterranean/Black Sea, and North/West Africa.
- **Optimize vessel routing** and scheduling to minimize ballast days and maximize time charter equivalent (TCE) earnings.
- **Negotiate charter parties** directly with cargo owners and brokers, safeguarding the company's commercial interests.

Project Cargo and Voyage Estimation

- **Evaluate and price specialized project cargo inquiries** in line with our vessels' capabilities.
- **Prepare accurate voyage estimates**, including bunker consumption calculations, port and terminal costs, and laytime analysis, to ensure optimum profitability.

Market Integration and Collaboration

- **Leverage a strong network within the Northern and Central European shipping markets** while maintaining active relationships with international chartering contacts**.**
- **Work closely with our in-house operations and technical management teams** in Leer to ensure smooth post-fixture execution.
